

LUDECKE

Since 1930. The perfect connection.

(from left to right: Ludwig Donhauser, Chief Executive Officer
Andreas Sperl and Klaus Herdegen, Wolfgang Liebl).

Well-deserved retirement for two long-term **LUDECKE** employees

It is almost a historic moment at **LUDECKE**:

Last week Ludwig Donhauser and Wolfgang Liebl, two long-term employees, were farewelled into their well-deserved retirement.

Ludwig Donhauser has been an integral part of the **LUDECKE** sales team since 1986. As team lead „Domestic Markets“ he had a major impact on setting up and establishing a broad customer base. His profound expertise allowed him to make important contributions to product innovations and technical improvements for our **LUDECKE** coupling systems.

Wolfgang Liebl has been working for our company for over 45 years.

After his training as an industrial clerk, he set up the department “Production Planning” all on his own. Since then, he has been one of the central control organs at **LUDECKE**. On top of this important task, he has been responsible for the IT infrastructure of the entire company.

Both Ludwig Donhauser as well as Wolfgang Liebl have had a major impact on **LUDECKE**’s constant positive development. The entire team wishes them both good health and all the best for an active retirement!

Since more than 90 years, **LUDECKE** is the leading partner for coupling systems to connect flexible fluid lines with tools, machines and industrial equipment.

Since 1949, we have been manufacturing fittings at the headquarters in Amberg for a variety of applications and media, which are distributed worldwide by the technical trade or used by the leading machine manufacturers (OEM) in their own machinery.

We are developing and producing first-class, innovative and sustainable products according to the highest quality standards. The product portfolio is comprised of a comprehensive standard range as well as individual custom item projects.

Thanks to our broad product range, our many years of know-how and our versatile range of services, we always guarantee safe and efficient solutions for your daily work.
