## The new **LUDECKE** Multi-Coupling System

The high-quality **LUDECKE** quick connect couplings are characterised by top safety and efficiency. For many years, they have proven themselves excellently in continuous industrial use. Now, we have added a technologically sophisticated multi-coupling system to this broad range.

The new **LUDECKE** multi-coupling system allows you to connect several temperature regulation circuits in one step. Especially when equipping machines, this provides huge advantages: Now, these tasks can be carried out quickly, easily and accurately. There are no more risks of mixing up important lines.

To match the most common plug systems and to guarantee the best compatibility possible, the **LUDECKE** multi-coupling is available with European, international and French plug profile as well as dripless system. Moreover, you can choose between a version with 6, 12 or 20 connections and from different connection types (female thread, male thread, hose stem).

On demand, the individual components are available as high temperature version as well.

Thanks to its modular design, every multi-coupling can be put together and configured individually and thus is perfectly tailored to any requirement and application.

Since more than 90 years, **LUDECKE** is the leading partner for coupling systems to connect flexible fluid lines with tools, machines and industrial equipment.

Since 1949, we have been manufacturing fittings at the headquarters in Amberg for a variety of applications and media, which are distributed worldwide by the technical trade or used by the leading machine manufacturers (OEM) in their own machinery.

We are developing and producing first-class, innovative and sustainable products according to the highest quality standards. The product portfolio is comprised of a comprehensive standard range as well as individual custom item projects.

Thanks to our broad product range, our many years of know-how and our versatile range of services, we always guarantee safe and efficient solutions for your daily work.
